

**IS YOUR PRACTICE PROVIDING ADEQUATELY FOR YOUR LIFE NEEDS?
IF YOU HAD TO SELL YOUR PRACTICE TOMORROW HOW WOULD YOU GO?
WHAT IS YOUR PRACTICE WORTH AND HOW CAN YOU IMPROVE ITS VALUE?**

‘Building Practice Value’ Seminar

ValuVet in conjunction with **Tynan Mackenzie** and **DFK Richard Hill**, invite you to attend our **‘Building Practice Value’** Seminar. This seminar has been designed for practice owners who wish to improve their present lifestyle or who may one day wish to leave the profession and rely on the sale of their practice (in part) to provide for a successful retirement.

To maximise opportunities for a comfortable retirement, business owners should concentrate on providing for their retirement with investing strategies while they are in practice as well as retirement strategies on the sale of the practice.

This highly relevant seminar will provide you with **practical investment strategies** as well as to **create real value** in your practice. It will be highly interactive, with ample opportunity for delegates to ask questions.

The speakers all have direct and personal experience in business wealth creation and succession planning, both from the veterinary perspective and from the advisory perspective.

SESSIONS AND SPEAKERS:

■ **Maximising practice profitability**

Dr Tony Thelander
(ValuVet)

■ **Effective wealth creation & preservation**
